What is Happening and Why?

US Department of Housing and Urban Development (HUD) mandates that:

- Continuums of Care (CoC) must use a Homeless Management Information System (HMIS)

- The HMIS must follow the HUD HMIS Data Standards
    - The Data Standards define what the HMIS is and how it operates

- The HMIS Data Standards are updated every two years at the start of the fiscal year (FY 2024 begins on October 1, 2023)

- FY 2024 is a year when the HMIS Data Standards are updated

- The new Data Standards cannot be implemented in the HMIS prior to the start of the fiscal year

On October 1, 2023, the Chicago CoC HMIS System will be updated to use the HUD 2024 HMIS Data Standards.
