making homelessness history

ALLINside

The White House, USICH and 19 federal agencies are partnering with **six selected state and local governments** for up to 2 years to strengthen and accelerate efforts to help people move off the streets and into homes. Chicago, Dallas, Los Angeles, Phoenix Metro, Seattle, State of California

For each community:

- Embed a dedicated federal official (hired 7/2023)

- Deploy dedicated teams

- Launch new efforts to address major barriers

- Convene philanthropy, the private sector, and other communities

Chicago established an MOU with 5 priority areas, including:

- Support to address technical issues that relate to allowing the system to provide added transparency for HMIS partners working across same populations.

This work will be the primary focus of HMIS until completed

all Chicago
making homelessness history

ALLINside

Next steps:

- Establish a workplan to accomplish this goal of the MOU
  - Review visibility and data sharing to ensure it aligns with client consent and supports access to housing
  - Review assessment structure to facilitate information sharing
- Determine how work will be completed by the HMIS Committee and who else needs to be involved
  - Establish a user group
  - Establish framework for guidance from PLE
- Conduct a legal review to ensure visibility complies with state and federal laws
- Assess privacy policy and consent to ensure they are reflective of changes

Note: This was just announced last week in the HMIS Committee, so work has just begun. We will provide more details as work continues.
